

What is ISO 22301:2012

ISO 22301:2012 Societal security — Business continuity management system will help organizations, regardless of their size, location, or activity, to be better prepared and more confident to handle disruption of any type.

Implementing a strong Business Continuity Management System will aid your organization in recovering from a disaster or disruption with minimum damages.

The BCM standard can also safeguard an organization against the reputation damage which can occur from missed deadlines, data leakages, operational or IT outages, industrial actions, disappointed clients, or direct financial losses due to the disruption.

The Benefits

The main advantages to be gained by an organization are:

- Identify and manage current and future threats to your business
- Take a proactive approach to minimizing the impact of incidents
- Keep critical functions up and running during times of crises

- Minimize downtime during incidents and improve recovery time
- Demonstrate resilience to customers, suppliers and for tender requests
- Gives visibility on the risks to your business both internally and externally
- Can give cost savings on reducing the impact of disruptions

How we can help you

Our consultants will assist management:

- Assess the criticality of each business operation and associated information processing service and determine the risk to the business of their delay or loss.
- Complete a business impact analysis.
- Contain and/or manage the risks in accordance with the policy.
- Prepare and keep current BCPs commensurate with the level of risk.
- Ensure that the BCPs are tested on schedule.
- Identify key processes.
- Improve public and media relationships.
