

Information Security

What is ISO 27001?

ISO 27001 is the international standard which is recognized globally for managing risks to the security of information you hold. Certification to ISO 27001 allows you to prove to your clients and other stakeholders that you are managing the security of information in your possession.

ISO 27001:2013 provides a standardized set of requirements for an information security management system (ISMS). The standard adopts process approach establishing, implementing, operating, monitoring, reviewing, maintaining, and improving your ISMS.

The Benefits

Applying the information security management system will provide your organization with a system that will help to eliminate or minimize the risk of security breaches that could have implications for legal or business continuity. ISO 27001 information security management system effective (ISMS) provides a management framework of policies and

procedures that will keep your information safe, whatever the format. The main benefits are:

- Keeps confidential information secure
- Allows for secure exchange of information
- Allows you to ensure you are meeting your legal obligations
- Provide you with a competitive advantage
- Enhanced customer satisfaction that improves client retention
- Manages and minimizes risk exposure
- Protects the company, assets, shareholders and directors

How we can help you

Our proposal includes:

- Staff awareness through training seminar on the principles of ISMS and issuing sustainability reports
- Unmatched expertise and technical competence to ensure that your ISO 27001 ISMS certification project adds value to your organization
- Consulting, internal audits, pre-assessment audits and facilitation during ISO 27001 certification audit
